

OK TO ENTER: /Z.M./

Application/Control Number: 09/847,720  
Art Unit: 2142

Docket No.: PALM-3629.US.PSI

**Amendments To The Specification:**

Kindly amend the last paragraph on page 3 of the specification as follows:

Moreover, the network capability of the personal digital assistant enhances a user's experience. As new network technologies emerge, additional network functionality is incorporated into the personal digital assistant. For example, a variety of wireless networks are being deployed to serve a wide range of devices including a personal digital assistant. Having access to may many different types of networks improves the productivity of the user and increases demand for the personal digital assistant. However, the personal digital assistant may not always be able to establish a network link with some of these emerging networks because of numerous reasons. Some of these reasons include: insufficient network capacity, technical network difficulties, and slow rollout of the coverage area of the emerging networks.

Kindly amend the second paragraph on page 8 of the specification as follows:

Figure 6 illustrates [[is]] a logical circuit block diagram of a personal digital assistant on which the present invention can be practiced.
